

Contents Volume 26, 1989

The original Swiss flysch: a reappraisal of the type deposits in the Swiss Prealps C. Caron (Fribourg, Switzerland), P. Homewood (Pau Cédex, France) and W. Wildi (Genève, Switzerland)	1
<i>Book Reviews</i>	
Economic geology	47
General geology	52
Geophysics	54
Paleontology	56
Petroleum geology	58
Petrology	59
Physical oceanography	60
Sedimentology	61
Stratigraphy	63
Structural geology	66
<i>Guide for Authors</i>	
Quartz cement in sandstones: a review E.F. McBride (Austin, Texas, U.S.A.)	69
Global tectonics since the breakup of Pangea 180 million years ago: evolution maps and lithospheric budget R. Weijermars (Uppsala, Sweden)	113
Modelling of the general circulation of shelf seas by 3D $k-\epsilon$ models J.C.J. Nihoul, E. Deleersnijder and S. Djenidi (Liège, Belgium)	163
Progress in geophysical fluid dynamics A.R. Robinson (Cambridge, Mass., U.S.A.)	191
Mesoscale atmospheric modeling Th.T. Warner (University Park, Penn., U.S.A.)	221
Silica diagenesis: origin of inorganic and replacement cherts R. Hesse (Montreal, Que., Canada)	253
<i>Book Reviews</i>	
Environmental geology	285
Environmental science	286
General geology	287
Geomorphology	295
Hydrology	296
Meteorology	297
Sedimentology	301
Soil science	303
Structural geology	304
